WORLD PARA DANCE SPORT RANKING SYSTEM

The Ranking system is based on coefficients where different World Para Dance Sport competitions are taken into consideration.

It is based on the points that participants can get by competing in World Para Dance Sport approved competitions.

Participant get from 100 down to 1 base point depending on their ranking in a specific type of competition (Table 1) and the number of participants (Table 2).

Participant means: couple or single

Table 1

Table of coefficients of the Rank of the competition	
TYPE OF WPDS COMPETITIONS	COEFFICIENTS
WPDS World Championships	1.5
WPDS Regional Championships or Regional Para-Games (European, Asian, Americas Championships)	1.3
WPDS World Cups	1.3
WPDS International approved competitions	1.0

The final score depends on the number of participants attending the competition:

Table 2

Table of corrective coefficients	
up to 3 participants	0.1
up to 6 participants	0.5
up to 12 participants	0.8
up to 16 participants	1.0
up to 24 participants	1.2
over 24 participants	1.5

The three best results are considered at the World Para Dance Sport World Ranking List during the current period of time. The current period of time lasts from January 1st until December 31st of the current Year.

In case participant shows 1 result – it is in the WPDS World Ranking List

In case participant shows 2 results – they are in the WPDS World Ranking List

In case participant shows 3 results – they are in the WPDS World Ranking List

In case participant shows 4 or more results – only 3 best results are in the WPDS World Ranking List

Bellow, tables showing how participants get the Result are presented.

If more than 24 participants compete – coefficient 1.5
