

Note:

- (1) Classifications under the supervision of at least one Level-2 International Classifier in each international classification
- (2) Reports of international classifications, or/and of national classifications, must be attached with the application.
- (3) Classifications under the supervision of at least one Level-2 International Classifier in each international classification
- (4) The participation in international and/or national classifications, and the interest in classification education/research will be considered.
- (5) Recertification is needed to maintain the level for international classifiers in 4 years and the level of trainee classifiers in 2 years. Failure to be re-certificated will result in degrading. Trainee Classifiers will need to start over if degrading happens.
- (6) Experience in being a chief classifier, reports of international classification of competitions, and the contribution in education/research will be considered in the maintenance of the status of Level-2 International Classifiers.
